STRATEGY

Your goal is to eat as many cherries and centre treats as you can while defending yourself against the monsters with your super powerball and the giant falling apples.

There are four types of monsters to look out for: regular monsters, boss monsters (the EXTRA letter monsters), henchmen, and diggers. Of all the monsters, only the diggers can dig tunnels. The regular monsters will occasionally change into diggers, so beware!

The boss monsters have a letter on them (watch the word EXTRA at the top of the screen) and appear whenever you eat the centre treat, and at every 5,000 points and multiples thereof. (A boss monster will only appear if he is covering a letter not already released and destroyed). When the boss monster appears after you, eat the centre treat, the boss monster's henchmen accompany him. The henchmen cannot always be destroyed by falling apples. If you destroy a boss monster first, before destroying his henchmen, all his henchmen will change into apples. If you can destroy all the EXTRA boss monsters, you will be rewarded with an extra Mr. Do.

And look for the lucky diamond that appears in some fallen, broken apples. Grab it for a giant bonus!
